healthcare

Your trusted partner

Since 1985, Global has been a primary source for purpose-built healthcare products and services that support wellness and raise the bar for quality, long-term value and durability for medical clinics, acute care and long-term care facilities.

You may wonder what sets us apart from other healthcare furniture manufacturers... the answer is: we care. We are listening to what people in the healthcare industry have to say and we are responding to their needs.

“Being an ambulatory care hospital means providing a completely different model of care. So, we needed to design a building that could accommodate that type of care and the innovations required to provide it.”

Heather McPherson, President and CEO¹, Women’s College Hospital

¹ Quoted in “Momentous: Building the Hospital of the Future”, 2012 Access + Innovation Report
Women’s College Hospital

GC Sirena club chair and Swap round top table with round centered base.

A classic reimagined

Senator® adds a modern look to the wingback chair with gracious curves and a high back for support. Spaces designed for relaxation will look richer and more beautiful when choosing the Senator series.

Senator armchair, two seat sofa and three seat sofa.

Perfect for smaller areas

A modern take on a classic design, GC Sirena™ remains just as relevant a design as ever. The chair's charm and diversity offer simple, clean, flexible lines that will complement and create a sense of warmth in any room.

GC Sirena club chair; club chair with casters; club chair with right laminate tablet and casters; and club chair with left laminate tablet and casters.

Form, function, value

Single to five seater styles with or without center arm, ensure a perfect configuration, no matter the size of the space. Primacare™ is respectful of housekeeping timeframes and workloads, providing a full and easily accessible 360° clean out with no open creases in the metalwork that can harbor contaminants.

Primacare HT guest low back single seater with open arms; guest low back three seater with open arms; and guest low back four seater with open center arms.

Guest low back five seater with open center arms; guest low back single seater with closed arms; guest low back three seater with closed arms; and guest low back four seater with closed center arms.

Comfort and safety

Be comfortable in Coast™. The Coast glider offers a smooth low-range rocking motion to help users relax. Designed with safety in mind, Coast's uniquely curved armrests remain stationary to provide a safer way for the user to get in and out of the chair.

Coast glider/motion chair.

A modern wingback chair

Primacare™ wingback has a healthcare compliant design that includes seat clean out, adjustable neck support cushion, integrated lumbar support and forward grasping armcaps in wood or urethane. Primacare wingback is available in standard, bariatric and two seater models with optional ottomans.

Primacare single seater wingback armchair with headrest.

Recline effortlessly

Better by design. Primacare™ motion recliners follow the patient's intuitive response to reach for the arms when they want to come to a seated position. This simple action overcomes patient stress and concerns if a caregiver is not immediately available.

Primacare motion recliner with solid wood armcaps, casters and optional tablet arm.

Primacare motion recliner with self-skinned urethane armcaps, casters and optional tablet arm.

“...providing ample natural lighting, namely through a large inner courtyard and skylights. The many outdoor views also facilitate orientation. The Center’s reception areas, waiting and care rooms are designed to allow patients to undergo their treatment with dignity and in comfort...”

Jodoin Lamarre, Pratte Architectes²

Primacare motion recliner with full arms, casters, and optional headrest and tablets.

Unique solutions

Primacare™ hip chairs take full advantage of Primacare's superior engineering and construction, including a higher seat, step rail and a more generous seat width for patients transitioning from surgery.

Primacare HT patient low back hip chair with open arms and **Primacare** patient low back hip chair with open arms.

The perfect solution for temporary seating

The unique folding frame on Janna® makes it the perfect solution for temporary seating, especially where space is at a premium. An optional wall bracket allows the chair to be conveniently stored while not in use. Available in your choice of an upholstered or wood back.

Janna folding chair with upholstered seat and back, and folding chair with upholstered seat and wood back.

Pull and flip to sleep

Sit or sleep in comfort with Dreme™. This space conscious sleeper series sets up quickly with a simple pull and flip design, offering a dedicated, cleanable and moisture barrier sleep surface. This popular series includes models with or without backrests and arms. Options include tablets, power capabilities and lined storage compartments for linens.

All Dreme models require zero wall clearance when adjusted. Dreme includes Global's commitment to support the rigors of healthcare environments with durable construction and ease of housekeeping features, including clean out spaces and optional sealed seams and casters. More than 500 performance healthcare textiles are available directly from Global in addition to COM specification.

Dreme sleeper with back, arms and laminate front; armless sleeper with laminate front; armless sleeper with back; and sleeper with back, arms and tablet.

Nourish the body with comfort

Nourish™ was developed in consultation with leading healthcare professionals as a “perfect patient chair.” It offers several unique and important features including, height adjustable legs, transfer arms, and tip and move wheels to benefit patient and staff interaction with the chair.

Nourish high back patient chair with adjustable built-in headrest and ottoman. Push bar is optional.

Patient support and special needs

A better fit. Primacare™ patient seating features an ergonomically-contoured back and built-in lumbar support, which can be enhanced with a flexing back for increased comfort or a fold-down upper back that enables caregivers to assist patients safely. “Tip and move” rear casters are optional on HT models, allowing the chair to be moved easily within the space (not for patient transfer).

Primacare patient high back chair with open arms and patient high split back chair with open arms.

Primacare HT patient high back chair with open arms and patient high split back chair with open arms.

“This is our community’s hospital.
We really wanted this to feel like their
hospital and I think we succeeded.”

Patrick Gaskin, President and CEO, Cambridge Memorial Hospital

Primacare HT patient high split back chair with open arms. **Primacare modular** guest low back two seat top; guest low back bariatric top; right end metal frame with open arm; center metal frame with open arm for linking seating units; left end table with thermally fused laminate top and metal legs; and center metal frame with open arm for linking seating unit to table on the left.

Safer solutions

Make it comfortable. Desmond™ dining chairs have been sized specifically to suit both elder care and acute care applications. Available in your choice of wood or metal frames.

Desmond HT metal armchair. **Enable table** multi-purpose table with high pressure laminate top, fixed height and E-Z lift dual arm tablets in high pressure laminate.

Bringing people and teams together

Meet River+™ the next generation of our highly popular lounge series, now with industry-leading support for workplace, education and healthcare. River+ is tested to three times the BIFMA standard and warranted to an active weight of 600 lbs. per seat location to support the demands of 24/7 environments.

The series offers three back heights, multiple seat heights, and supports linear, curvilinear, 90-degree and 120-degree configurations. Elegant polished aluminum arms are fully modular and can be installed and relocated on-site to add support where required and adapt when needs change.

River+ inside curve two-seat sofa with extended back; inside curve two-seat sofa with standard back; 42" round laminate coffee table; and 96"W media hearth with sliding glass doors.

“... if we can make the environment more conducive to having family around, to having privacy, to providing light, comfort and space to move, it improves the experience for the patient and brings joy to an often unpleasant time.”

Vera Heldman, Clinical Educator ICU Medical Unit, Cambridge Memorial Hospital

Primacare HT lounge chair with open arms. **GC Sidero** side chair, 13" high seat. **River+** outside curve two-seat bench; inside curve two-seat bench; and 42" round bench.

Comfort and warmth

Calidon™ offers the comforts of home in reception, lounge, waiting and patient spaces. Its durable hardwood frame and infection control features are a great fit for high traffic office and healthcare environments. Continue the appeal with an array of matched single, two and three seater lounge and guest seating, benches and tables. Corian® table surfaces available.

Calidon wood lounge single seat with closed arms and optional power/USB; 22" square end table; 36" square coffee table; wood lounge three seater with closed arms and optional power/USB; wood lounge two seater with closed arms and optional power/USB; and single seat bench.

Wood lounge single seat with open arms; wood lounge two seater with open arms; and wood lounge three seater with open arms.

Caring for the whole family

Primacare™ sleepers are perfect for extended visits, sick rooms, staff lounges or wherever unexpected stays may happen. Transitioning easily from lounge chair to sleeper makes it the ideal solution for these applications.

Primacare wide single sleeper and wide double sleeper.

Multi-use favorites

GC Sidero™ is a collection of contemporary multi-purpose stacking chairs with a sculpted look that features wide, curved arms and a round, tubular wall saver steel frame.

GC Sidero low back mid size armchair; low back armchair; low back side chair; low back armchair with sled base; high single-piece back mid size side chair with sled base; and low back bariatric armchair.

Multi-purpose seating for healthcare

Frolick™ and Splash™ are perfect multi-purpose chairs specifically designed to meet the many seating challenges within healthcare environments. Clients who need to respond to greater requirements for housekeeping and infection control have the option of adding an additional moisture barrier and/or heat sealed seams. In mental health areas where protection against hiding contraband or the need for greater safety is required, tamperproof fasteners, additional weight and/or completely sealed seat and back cushions are available.

Frolick armchair with rectangular back and concealed attachment; side chair with rectangular back and concealed attachment; armchair with rectangular back, concealed attachment and sled base; and bariatric armchair with rectangular back and sled base. **Splash** fan back four-legged armchair with concealed attachment; fan back four-legged side chair with concealed attachment; fan back armchair with concealed attachment and sled base; and fan back side chair with concealed attachment and sled base.

Transform any space into a great place

Popcorn™ designed by Zooney Chu is ideal for conference areas, cafeterias, classrooms and healthcare spaces – or wherever multi-purpose stacking applications are required.

Popcorn armless chair with upholstered seat and polypropylene back; armchair with polypropylene seat and back; armless chair with polypropylene seat and back; armless counter stool with polypropylene seat and back; and bar stool with arms, polypropylene seat and back.

Expand the audience. Indoors and out.

When rooms are planned to optimize space, accommodating extra people can be challenging. Flap™ is a versatile seating solution that can expand the audience quickly. Lightweight and stackable, UV stable, weather and stain resistant, Flap folds flat for storage or can be hung in pairs on a wall hook (optional). The technopolymer molded construction ensures Flap can be used safely in MRI rooms.

Flap folding chair; dolly for Flap folding chairs; and wall hook.

Bakhita: light, comfortable and lasting

Bakhita™ is designed to look good and perform well. Bakhita is constructed of two techno polymers for strength, has UV additives for outdoor exposure and contains no steel hardware, making it a nonferrous product perfect for rooms housing MRI technology.

Bakhita armchair with upholstered seat and polymer back; armchair with polymer seat and back; side chair with upholstered seat and polymer back; side chair with polymer seat and back; armless bar stool with polymer seat and back; and armless bar stool with upholstered seat and polymer back.

Patient and resident room solutions

Sonoma™ provides the flexibility, the enhanced utility and the attention to detail that renders a friendly and nurturing environment. The Sonoma Collection was developed in response to the needs of caregivers and changing expectations of people in care. Specifiers will find it aligns dimensionally to minimize footprint and maximize available space.

Sonoma bedside cabinet with three drawers, pull out shelf and rear casters; bedside cabinet with adjustable shelf and rear casters; three-drawer dresser; four-drawer dresser; bookcase with five shelves; open hutch with fixed and adjustable shelves, three-drawer dresser with open storage space; and two-door wardrobe with fixed and adjustable shelves, full height storage. Corian® surface available.

Aldon™ offers an affordable and personalized solution for patient and resident room furniture. Bedside cabinets and wardrobes are available in a variety of configurations. Aldon dressers are available with full-width or half-width drawers for shared use in double occupancy rooms.

Aldon bedside cabinet with drawer, right opening door and metal legs; bedside cabinet with three drawers and casters; bedside cabinet with drawer, adjustable shelf and metal legs; dresser with three drawers and metal legs; double dresser with six half drawers and plinth base; narrow wardrobe with drawer, fixed upper shelf, coat rail and metal legs; and divided wardrobe with two drawers, fixed upper shelf, coat rail and plinth base. Corian® surface available.

Overbed tables

Eat, read or surf on your laptop comfortably while seated in bed or on a chair with overbed tables. A variety of overbed table tops and base shapes are available to meet individual needs. Increase the convenience of your overbed table by adding accessories such as a vanity drawer, storage basket and locking casters.

Overbed tables rectangular thermofoil spillguard top with flip-top surface, U-base and vanity drawer; peanut shaped thermofoil spillguard top with C-base; kidney shaped thermofoil spillguard top with C-base and Desmond HT metal armchair.

“Our new Health Unit was designed with the public in mind – their needs, well-being and health.”
